COUNCIL AGENDA: July 13, 2004

TO: City Council

VIA: Dennis R. Halloway, City Manager

FROM: Joanne Heilman, Executive Secretary to the City Manager 

SUBJECT: Amendment to the Agreement between the Public Health Institute in conjunction with California Healthy Cities and Communities and the City to provide an additional \$4000 to the existing grant.

## **RECOMMENDATION**

It is recommended that the City Council accept a Healthy Cities grant in the amount of \$4,000 and authorize the City Manager to sign the grant agreement.

## **BACKGROUND**

In September of 1999, the City Council approved Resolution #2099 supporting the Healthy Cities Project and indicated its intent to participate in the project. Since that time the City has received several grant monies to implement a Community Garden/Tool Lending Library project as well as conduct workshops on promoting health, nutrition and physical activity.

## **ANALYSIS**

City staff in collaboration with the California Healthy Cities and Communities, Loma Linda University School of Public Health and the North Central Neighborhood Steering Committee continues to develop educational programs. The primary focus is to encourage healthy eating and physical activity by providing training in gardening techniques, cooking demonstrations and nutritional/educational workshops.

The grant funds will be used to purchase equipment and tools in order to encourage greater interactive participation in the workshops provided. A demonstration table will enable nutrition instructors and Loma Linda University School of Public Health Students a means of providing organized, visual step-by-step cooking demonstrations as well as a cooking environment that the participants are accustomed to at home. This unit is self contained and mobile, which allows accessibility to demonstrate in various locations.

## **FINANCIAL IMPACT**

The City will receive an increase in revenue to account #37-9378 in the amount of \$4000.
